Undisturbed radio reception
CAR & HiFi 1/2022

The strongest

With the EIGHT100, Musway delivers what is probably the most powerful eight-channel power amplifier in the world off. It doesn't matter whether it's a component system, active system or one or more subwoofers, the EIGHT100 supplies everything with full power Power. No less than 8 x 100 watts into 4 ohms and 8 x 190 watts into 2 ohms fert the latest Class-D amplifier technology nik. With its 4 – 8 inputs

They establish contact with retrofit sources as well as with the factory radio, and virtues such as the recognition of diagnostic circuits and undisturbed radio reception are a matter of course with the EIGHT100. In addition, it is modern, compact and quite musical - what more could you ask for?
